Inspirational reach out to aspiring statisticians
through story-telling

Lecture 16: Dr. Girish Aras, Statistical Consultant, New York City, USA.
Saturday, September 17th, 2022 - 6.30 pm – 8.30 pm (IST), MS Teams

Dr. Girish Aras
Statistical Consultant, New York, USA

Dr. Girish Aras holds a Ph.D. degree in Statistics and is a statistical leader offering 7 years of teaching experience at major American and Indian universities and more than 25 years pharmaceutical and FDA experience. He has seventeen years of managerial experience at FDA and industry. His industry experience includes supporting global projects; supervising team of 15 MS/PhD statisticians (in two and sometimes 3 tiers) local and remote, and leading larger teams of statisticians and programmers. Regulatory filings experience includes 2 BLAs including US and international submissions. FDA experience includes participation in Advisory meetings as well as work experience as a reviewer and as a team leader. Thirteen years of experience, leading biostatistics for Enbrel Phase 4 and Med Affairs, and supporting phase 1, 2, 3 programs in immunology. Led a large global Phase 2/3 Brodalumab program for several immunology indications. Therapeutic experience includes inflammation, Cardiology, pulmonary, diabetes, anti-viral and GI. Main strengths are supporting phase 3 programs, submissions, medical affairs with innovative studies and methodologies harvesting real world evidence to augment clinical trials-based evidence.
