The four pillars of NMIMS building blocks are: (a) knowledge creation that is relevant and applied, helping Society to know the unknowns, demonstrating leadership and meeting expectations in knowledge creation, and (b) enhancing teaching and learning through "Assurance of Learning" System, (c) making NMIMS known/recognized for its academic excellence and the most preferred institution of learning, and (d) aligning stakeholders and meeting their aspirations. NMIMS aims to work towards these building blocks through a culture of dialogue, collaboration, and mutual trust.

The University's innovativeness is borne by many programs visualized in a value-driven manner. NMIMS has always believed in remaining relevant and, at the same time, engaging in knowledge generation and dissemination. The student resource book guides you on university rules and regulations and will help you navigate your journey here at the NMIMS. During your stay at NMIMS, we would like to ensure clarity and transparency in our communication. The Student Resource Book (SRB) has been divided into three parts. Part I comprises University information and rules and regulations that you would need to know. Part II has school-specific details for your effective and smooth interaction with the school, and Part III has annexures. Also listed are facilities provided by the institution.

Please spend some time and go through this information carefully so that you do not miss any opportunity that NMIMS may have to offer you. The SRB contains a Student Undertaking page at the end of the document, which you are required to sign and submit to your course coordinator by the suggested date.

We would also like your support to maintain and enhance the University's image and uphold its values. We value your feedback.

Dr. Ramesh Bhat
Vice Chancellor

4. Academic Guidelines

4.1 Credit Structure

Credit structure is defined in terms of contact hours assigned for various academic components of a program. This includes classroom lectures, tutorials, practical sessions, projects, seminars, lab work, group work and any other academic activity for which contact hours are assigned in the curriculum. The details are as follows:

Trimester Pattern: For trimester pattern programs the credit specifications are as follows:

Details	Credit	Equivalence in hours in 10 weeks of Trimester
Theory Courses	1 credit	10 hrs.
Lab/Tutorial/Group/Presentation work	1 credit	20 hrs.
Seminar (subject to schedule throughout trimester)	1 credit	20 hrs.
Project work	1 credit	20 hrs.
Internship	1 credit	40 hrs.
Research paper/ dissertation	1 credit	20 hrs.

Semester Pattern: For Semester pattern programs the credit specifications are as follows:

Details	Credit	Equivalence in Hours in 15 weeks of Semester
Theory Courses	1 credit	15 hrs.
Laboratory Course / Studio activities	1 credit	30 hrs.
Tutorial Courses (Applicable for Technical Schools only)	1 credit	15 hrs.
Workshop-based activities *	1 credit	30 hrs.
Seminar / Group Discussion (Subject to schedule throughout the semester)	1 credit	15 hrs.
Project work & Dissertation	1 credit	30 hrs.
Internship (Max of six credits per semester)	1 credit	30 hrs. per week
Field-based Learning/Practices / Projects	1 credit	30 hrs.

***Workshop-based activities:** Courses involving workshop-based activities require the engagement of students in hands-on activities related to work/vocation or professional practice. Every student is engaged in performing a skill-based activity related to specific learning outcome(s).

Community Engagement and Service: The Curricular component will involve activities that would expose students to the socio-economic issues in society so that the theoretical learnings can be supplemented by actual life experiences to generate solutions to real-life problems. 30 hrs of contact time per credit in a semester along with 15 hrs of activities such as preparation for community engagement and service, preparation of reports, etc., and independent reading and study. Thus, the total learner engaged time would be 180 hours for a 4-credit course.

4.2 **Internal Evaluation:** The broad components of evaluation for any course/subject may be as indicated below. The total marks for each course with a maximum that can be assigned for each component will be as per the specific requirements of school.

- 4.2.1 Mid-Term Test / Lab Work / Term Work
- 4.2.2 Class participation/ Viva / presentation / Project work
- 4.2.3 Quiz / Assignments / Case Study / Group Discussion

4.3 Every course should have at least 3-4 evaluation components. The components of ICA for respective subjects should be spelled out at the start of the trimester / semester. The approximate time of conduct of these individual components needs to be spread across the full trimester / semester.

4.4 It is the sole responsibility of the student to bring to notice any discrepancy in internal marks as soon as it is shared with them. Any changes in submitted ICA marks (after the respective teacher submitted the Dean/Director through HOD / Area chairperson) needs to have special permission and approval from the Dean/Director of the School/Campus.

Kindly refer to Part II for school specific criteria, if any.

- 4.5 Term End examination is a compulsory component. The mode of the Term End Examination will depend on Course Learning Outcomes.
- 4.6 Duration of examination
- 4.6.1 Minimum duration of Mid -Term Examinations: 1 hr.
- 4.6.2 Minimum duration of End-Term Examinations: 2 hrs.
- 4.6.3 Examination duration can also be more than the above specified time as defined by respective schools.
- 4.7 The internal evaluation marks once shared with the students and finalized cannot be changed subsequently.
- 4.8 For all the programs, the weightage for each component will be specified by the Faculty and will form an integral part of the course outline (as per specific requirements of school/program). The Faculty has the flexibility to formulate and implement an evaluation system with weightage specified in course outline. While approving the courses, the HOD/Area-in-charge and the Dean/Director/ Associate Dean will ensure that the evaluation components and weightage points assigned to each component are fair. Such evaluation components should be announced to students before the commencement of course delivery.
- 4.9 For grading purpose, the weightage mentioned by the faculty in the course outline will be applied for each component of evaluation irrespective of the marks assigned to the said component for the examination.
- 4.10 The minimum 15 number of students to offer an elective course/s on the basis of the total number of students registered in that particular elective courses.
- 4.11 Project Guidelines:

The CBCS offering is a concept, which is in line with the international academic system. Students may opt for the course from the bouquet of courses offered in CBCS in lieu of a course/s dropped (as defined in their school's course structure) or take the courses offered by their Schools. The students are also allowed to choose CBCS courses as an additional subject for extra credits as a credit course or audit course. The CBCS offerings of courses will be opted from a UG Program to a UG program and PG Program to PG Program across all schools where the grading system is the same. The UG students of 1st year and PG students of Term I of 1st year are not eligible to opt CBCS courses. Students studying in the school where the teaching/exam scheme is governed by a statutory body can take only extra credit courses.

14 Feedback Mechanism:

15 Mentoring Programme / ‘Psychologist and a Counsellor’:

15.1 Mentoring Programme:

Students (as applicable school wise) have been assigned faculty mentors whose role is to help assimilate the NMIMS culture, facilitate intelligent choice making regarding the selection of courses, and help identify resources needed by all students. Do meet your faculty mentor regularly as per their convenience and availability.

15.2 Psychologist and a Counsellor:

A Psychologist is a non-judgmental, trained professional who understands, ensures privacy and confidentiality and guides you by giving choices so that you make the right decision. This process is facilitated using realistic, structured, and research-based therapy.

Managing emotions is vital to ensure all-rounded progress in life. We need to break the old walls of myths and misconceptions to learn something new. Visiting a counsellor (Psychologist) enables us to relearn more helpful, progressive, reality-based thinking.

Personal counselling is essential at every step in life, even at the corporate level. What we think about situations affects our subconscious mind and interferes with our present-day life.

As normal human beings at any given time in life, we could go through challenges and have no one to share with or guide us. We often do not share our issues with family or friends due to the fear of upsetting them. We worry that perhaps they may not understand or could become judgmental. At such times, we recommend Personal Counselling.

- i. “I cannot concentrate or focus nor can I sleep, at times, I get so scared that I go blank in my exams!”
- ii. “Since the time he left me, I cannot put my attention to anything I will not be able to live anymore.....can’t bear it if she is not in my life!”
- iii. “I have lost my confidence I feel worthless /hopeless; no one loves me. I don’t want to live anymore”
- iv. “I feel nobody understands what I am going through...” (People become judgemental instead of understanding and supporting) “I feel people invalidate my feelings.”
- v. “I do not know whom to share my feelings with. Where do I seek help? Who will be able to help me?”

Have you had any of these repetitive thoughts or faced a rejection that you cannot cope with?

Have you reacted very angrily at first and then later realised that reacting to the event was not needed and in the process, you harmed the relations you had with your friends and family? Do you not know what went wrong then? Do you not understand what triggered you?

Just as we would treat a sprain with some ointment, we try to heal our emotional pain independently. When the sprain is not healing, we visit the doctor, and similarly, one sees the psychologist sometimes when we are unable to clear our emotional challenges on our own. The counsellor needs to check how deep your wound is, and usually, you are helped through therapeutic counseling.

We may be unaware of our behaviour’s implications on others, but it eventually could affect our relations in daily life at home, in class, or at work. When past emotional situations are not dealt with therapeutically, we could develop unhealthy negative thoughts and feelings that we need to be aware of. They could again lead to complications and affect our performance, decision making, logical thinking, studies, relationships and career. This continued stress can gradually affect our body and physiological health causing hypertension, respiratory ailments, gastrointestinal disturbances, migraine and tension headaches, skin conditions and ulcers. Understanding the mind body connect is very essential.

The biggest myth is that being emotional is to be weak, so often, we push all our emotional issues under the carpet and then take up unhealthy habits like smoking, drinking, and substance abuse to escape from our reality. We hope to feel better, which lasts only for a short term. On the other hand, creating long term damage may lead to unhealthy dependency.

NMIMS wants to ensure the holistic development of the students. We understand, that to perform at your highest potential in your academic journey, your emotions and mental health need to be well regulated and balanced. Therefore, have appointed a team of psychologists who you connect with via call or email and set up a session to discuss any concern that may be affecting you. 21. Safety Guide for Students on Floods, Fire and Earthquakes

NMIMS gives utmost importance to safety of its students. It prepares students for natural hazards.

The safety measures for some natural disasters such as 1) Floods, 2) Earthquakes and 3) Fire are highlighted briefly.

21.1 Floods: Precautions to be taken in case of Floods are given in Table 1 below.

Before Floods	During Floods	After Floods
<ul style="list-style-type: none"> Identify and visit elevated areas in and around the Institute as places of refuge during a flood Be aware of drainage channels, and other low-lying areas known to flood suddenly. Consult and involve local authorities in the institutes Check out for the monsoon alerts for the heavy rains declared by the Municipal Corporation Do not travel long distances on dates indicated as 'Monsoon Alerts'. Contact the Institute if there is any pre-planned activity or examination or any other important work on that day and try to adjust it on some other day Keep locally available equipment such as ropes, batteries, radio, plastic bottles and cans handy during the rainy season. This can help you to plan your rescue Prepare a food kit including emergency food items such as biscuits, snacks, drinking water and so on 	<ul style="list-style-type: none"> Evacuate to previously identified elevated areas Your life is most precious. Avoid saving valuables at that moment. Disconnect electrical appliances. Turn off utilities at the main switches or valves if instructed to do so Don't touch electrical equipment if you are wet or standing in water Do not walk through moving water. Six inches of moving water can make you fall If you have to walk in water, walk where the water is not moving Use a stick to check the firmness of the ground in front of you Avoid floodwaters; water may be contaminated by oil, gasoline, or raw sewage Water may also be electrically charged from underground or downed power lines Listen to the radio for advanced information and advice. Don't spread rumors Move vehicles to the highest ground nearby Do not enter floodwaters by foot if you can avoid it Never wander around a flooded area Drink clean water 	<ul style="list-style-type: none"> Stay away from downed power lines, and report them to Security Officer Leave the Institute / home only when authorities indicate it is safe Stay out of any building if it is surrounded by floodwaters Use extreme caution when entering buildings; there may be hidden damage, particularly on foundations Floors in the building will be slippery due to water and mud. Walk carefully on the slippery floor. Wear appropriate footwear. Do not use slippers during the rainy season Watch out for loose flooring, holes and dislodged nails Clean and disinfect everything that got wet Discard any food items which may have got wet Inform them about the damaged drainage and sewage systems in and around the building to the authorities as soon as possible. These can be a major health hazard First protect yourself and then help others.

21.2 Earthquake: Precautions to be taken in case of earthquakes are displayed in Table 2 below:

Before Earthquake	During Earthquake	After Earthquake
<ul style="list-style-type: none"> In hostel or at home keep heavy objects on lower shelves so they will not fall on you during an earthquake. Make sure your water heater and gas cylinder is secured and intact. This will ensure that it will not fall during an earthquake and hurt someone or start a fire. Keep a torch and a mobile handy. Keep the corridors in the hostel/house clear of furniture and other things, making movement easier. 	<p>If you are at home or inside a building</p> <ul style="list-style-type: none"> Do not rush to the doors or exits; never use the lifts; keep well away from windows, mirrors, chimneys and furniture. Protect yourself by staying under the lintel of an inner door, in the corner of a room, under a table or even under a bed. <p>If you are on the street</p> <ul style="list-style-type: none"> Walk towards an open place in a calm and composed manner. Do not run and do not wander round the streets. Keep away from buildings, especially old, tall or detached buildings, electricity wires, slopes and walls, which are liable to collapse. 	<p>If you are at home or inside a building</p> <ul style="list-style-type: none"> Expect aftershocks. Be prepared. Stay where you are and do not come out immediately. Keep calm and obey any instructions you hear after you come out Turn off the water, gas and electricity Do not smoke and do not light matches or use a cigarette lighter. Do not turn on switches. There may be gas leaks or short circuits. If there is a fire, try to put it out. If you cannot, call the fire brigade. Immediately clean up any inflammable products that may have spilled (alcohol, paint etc.). Avoid places where there are loose electric wires and do not touch any metal object in contact with them. Do not drink water from open containers without having examined it and filtered it through a sieve, a filter or an ordinary clean cloth. Eat something. You will feel better and more capable of helping others. If the building is badly damaged, you will have to leave it. Collect water containers, food, and ordinary and

Provide them with first aid. Do not move seriously injured people unless they are in danger. <p>If you are outside</p> <ul style="list-style-type: none"> • If you know that people have been buried, tell the rescue teams. Do not rush and do not worsen the situation of injured persons or your own situation. • Do not re-enter badly damaged buildings and do not go near damaged structures. • Do not walk around the streets to see what has happened. Keep clear of the streets to enable rescue vehicles to pass. • Keep away from beaches and low banks of rivers. Huge waves may sweep in. • Keep updating yourself with the latest information on earthquakes through radio or T. V.

21.3 Fire: Precautions to be taken in case of fire are given in Table 3 below:

Before Fire	During Fire	After Fire
<ul style="list-style-type: none"> • Identify the fire hazards and where fires might start, e.g. laboratories, storerooms, kitchens and other such places. • Identify all the exit routes of the Institute. • Check the adequacy of the firefighting apparatus and its maintenance. 	<ul style="list-style-type: none"> • Do not panic. Shout for help. • Do not run. • Do not waste time collecting valuables. • Inform the fire brigade about the fire and alert neighbors. • If possible, use a fire extinguisher. • Do not take shelter in the toilet. • Shut all the doors behind you while leaving the room to prevent fire from spreading everywhere. • Do not use the lift to escape. • Use the nearest means of escape and the staircase available. • Exit ground level instead of the terrace. • Report about your safe escape and any other information to the University authorities, fire brigade or police present at the site. <p>If trapped or stranded:</p> <ul style="list-style-type: none"> • Stay close to the floor level. • Cover the gaps of the door with any piece of cloth available. • Do not jump out of the building. • Signal or shout for help. • Stop, drop and roll on the ground and cover with a blanket; pour water on the body • Dial 101 or 22620 5301 for fire brigade • Give the fire officer a detailed address, the nature of the incident and the telephone number from which you are calling. Preferably, use a landline. Keep down the receiver and wait at the same spot. Control Room will call back to verify the call. • Wait for the Fire Brigade to arrive and co-operate with the firefighters. 	<ul style="list-style-type: none"> • Don't re-enter or permit anyone to enter the building, unless the fire officials have permitted to enter.

21.4 In case of any injury caused or loss of life to the negligence of the student and/or due to natural calamities the institution shall not be held liable in any form of compensation and/or responsibility whatsoever.

Nilkamal School of Mathematics, Applied Statistics & Analytics

Message from Dean

Welcome to the School of Mathematics, Applied Statistics and Analytics. Emerging out of the recent restructuring exercise initiated by the NMIMS University, the School is perhaps the youngest among the Schools in the University. I am sure, our journey is going to be exciting and enriching for the students and the faculty. We are hoping to experience an invigorating renewal of intellectual bondage between Mathematics, one of the oldest branch of Science, and Statistics, one of the youngest twentieth century discipline of Science.

The new age scientific and technological innovations have brought Mathematical Sciences to be at the center stage. Mathematical Sciences, which solve problems on the basis of logic and scientific approach, are highly required in our modern society which is increasingly becoming more and more complex and globalized. Interestingly, both Mathematics and Statistics are much sought after disciplines of study and well positioned to be useful in solving many of the theoretical problems that have end user applications in society. In the modern days the potent combination of Mathematics and Statistics is seen as the driver of philosophy, that is "knowledge creation, development, and transmission for the good of society". There is no second opinion that education is an investment, and the School wants to make sure your investment is rewarded.

Our approach to education, from our rigorous but hands-on academic curriculum to the unique opportunities that we provide to our students, allows you to put classroom instructions to work in the real world. This approach is geared towards ensuring you earn the degree and skills that will make you an asset to future employers and prepares you for a rewarding career.

The SOMASA provides access to many valuable resources. Our teaching faculties are accomplished mathematicians, statisticians and engineers in the field, and many bring a wealth of industry experience to the classroom. The students will have plenty of time to get to know the professors and seek their advice both inside and out of the class. We have in place student mentoring system which ensures sustainable personal interest in each individual's success.

The achievement indicators of the programmes offered by SOMASA are on the rise. These include increases in undergraduate enrollment, accomplishments in research, and recognition of SOMASA's excellence through student scholarship awards and placements. The departments within the school bring class instructions to life through research treatise course, capstone projects and industry internships.

In the current decade, Computational Mathematics, Data Science, Model based Analytics and Artificial Intelligence have been receiving a phenomenal traction both in academia and the industry. There is a huge potential in terms of formal career opportunities in these disciplines. The industries are keen on recruiting under-graduates and post-graduates with qualifications in Applied Mathematics and Statistics as the core members of Data Science and Business Analytics Team. All our programmes are in line with the NMIMS' (Deemed to be University) priority strategy to design and deliver programmes that cater to market requirements. Strategically, the University aims to play a special role in enhancing the employability of young Indians and helping the economy acquire a competitive edge.

I look forward to supporting our aspiring students, and call upon them to continue to learn, discover, and contribute to solving the most challenging problems. I encourage you to explore your creative thinking during your journey with us.

1.1 General Guidelines:

This part of the booklet provides comprehensive information on the Rules and Regulations for B.Sc. Programs from our School.

NMIMS University gives freedom to its various Schools to tailor their academic programs as per their specific needs, within the framework of the Rules and Regulations approved by the Board of Studies and Academic Council from time to time. Keeping in view the new technical developments and to allow students some freedom to explore topics of their interest, NSoMASA revised its undergraduate programme curriculum (w.e.f. the Academic Year 2024-2025) as per NEP 2000 guidelines. The revised curriculum provides additional opportunities and flexibility for students to optimize their learning experience.

NSoMASA offers the following programs:

Academic Calendar

The academic activities of the School are regulated by the Academic Calendar, and released at the beginning of each academic year. It is mandatory for students/faculty to strictly adhere to the academic calendar for completion of academic activities. The Academic Calendar can be seen on the School website: <https://mathematics.nmims.edu/>

1.2 Academic Guidelines:

The following are the keywords used in this document:

- **Discipline:** A “discipline” is defined as a grouping of courses that share common academic or vocational preparation, which are typically defined by a degree or degrees, or specific professional preparation. Science & Technology, Arts, Commerce, Management etc.
- **Program:** A ‘Program’ is a set of courses that are linked together in an academically meaningful way and generally ends with the award of a Degree. Thus, B.A., B.Sc. and B.Com. are Programs.
- **Credit Point:** It refers to the ‘Workload’ of a student and is an index of the number of learning hours deemed for a certain segment of learning. These learning hours may include a variety of learning activities like reading, referencing, reflecting, discussing, attending lectures, writing assignments, preparing for examinations, etc.

Credits assigned for a single course are based on the hours it would take for a student to complete a single course successfully. The range of credits of a single course may be one to six credit points wherein one credit is construed as corresponding to 15 learning hours for the Theory Course or 30 learning hours for the Practical Course.

- **Subject and Course:** A course is the study of several learning topics and consists of different units or modules. A set of different courses forms a subject. For example, Calculus and Algebra are courses from a subject Applied Mathematical Computing of F.Y.B.Sc. program.
- **Major subject:** It is the subject of main focus and the degree will be awarded in that subject, provided that students secure the prescribed number of credits (about 50% of total credits) through core courses in the major subject. Elective courses of major will be offered in the third/fourth year. Two credits of major IKS shall be included under the major.
- **Minor subject:** (18-20 credits) It helps a student to gain a broader understanding beyond the major subject. The minor subjects may be from different disciplines of the same faculty of major subjects. For example, if a student is pursuing Statistics as a major subject, then Mathematics with 18-20 credits can be taken as a minor subject.
- **Open Elective (OE):** (10-12 credits) An elective course is generally chosen from an unrelated subject/discipline to seek multidisciplinary exposure. For example, if Statistics is a major then mathematics courses can be an open elective.
- **Vocational and Skill Enhancement Courses: (14-16 credits)**
 - (a) **Vocational Skill Course (VSC):** (8-10 credits) Courses which are aimed at providing hands-on training, practical skills and knowledge, competencies, and proficiency to students to enhance skill & employability.
 - (b) **Skill Enhancement Course (SEC):** (6 credits) Courses which are to be selected from the basket of skill courses approved by the University. It could be chosen from a basket/pool offered by the college or a MOOC on Swayam or NPTEL platforms

- **Ability Enhancement Course (AEC):** (8 Credits) Courses which are aimed at enabling the students to acquire & demonstrate the core linguistic skills, and achieve competency in Modern Indian Language and English Language. The focus is mainly on communication skills.
- **Value Education Course (VEC):** (4 Credits) Courses which are based upon the content that leads to knowledge enhancement through various areas of study such as Understanding India, Constitution of India, Environment studies, and Sustainable Development.
- **Indian Knowledge System (IKS):** (2 credits) To be offered in 1 year. To be chosen from a basket of IKS courses.

**On-Job Training(OJT)/Internship/Field Project (FP)/Community Engagement Programme (CEP),
Research Project (RP):**

- Application of knowledge/concepts in solving or analyzing a real-life problem. All these are related to the major subject.
- Internship corresponding to the major subjects with 8 credits.
- Field Project (FP)/Community Engagement Programme corresponding to the major subjects with 4-6 credits. To be offered in the second and third year.
- Co-Curricular Courses (CC): (8 credits) Courses which will provide students with a sense of identity & belonging, as well as an appreciation of other cultures & identities; for example courses such as National Cadet Corps (NCC), National Service Scheme (NSS), Yoga education, Health & Wellness, Sports, Cultural activities, Fine/Applied/Visual/Performing Arts. To be offered in first and Second year.
- Research projects with 12 credits and is to be offered at fourth-year Honours with research UG degree.

2. Placement Guidelines:

NMIMS is a premier University of the country and the B-school is in existence for over four decades. Over the years it has earned recognition from industry & professional associations, corporates, peer group institutions and accreditation agencies. The University has a strong industry connect and a preferred choice for the corporate sector for talent. Companies view NMIMS as a great place to recruit potential young managers and business leaders. Placement Support is offered to various programs across Campuses and Schools. Leading companies across sectors consider our students for recruitments/ internships. Our esteemed alumni occupy senior positions in leading companies across sectors have always supported us in placements.

The Placement Office is an interface between NMIMS & the Industry for facilitating internships & recruitments opportunities for students. Efforts are made to market the programs with their merits.

Placement officials actively network with the corporate sector with an endeavor to get companies to open suitable job & internship profiles for the batch. They reach out to companies across sectors and locations for appropriate opportunities for students, showcasing brand NMIMS, the quality and diversity of the

batch, provide timely customized services, continuous communication and offer support that would facilitate their participation in placements

Placement officials mentor & guide the Students Placement Committee who are actively involved in the activities, connecting with companies, meeting company officials for presentations, operational aspects and in coordinating various activities during the placement processes.

The placement guidelines are devised in the larger interest of the School and the batch, in consultation with students and faculty. Each of the Schools share with the batch, guidelines related to Resume, PPT, Internships, PPO's/PPI's, Final Placements etc. The School reserves the right to change, modify the guidelines in the best interest of the batch. Students are expected to abide by the guidelines during placement processes. In the event of non-conformance of the placement guidelines, the School reserves the right to initiate corrective action.

Generally, students of the post-graduate programs are keen to participate in placements. However, many from the under-graduate programs opt out or do not register for placements as they have alternative career plans. This approach acknowledges the diverse goals and aspirations of students and features the institution's commitment to supporting individual choices that align with personal interests and career aspirations. These paths include pursuing further higher studies, preparing for entrance exams of professional programs, preparing for civil services, defence forces, government offices etc., engaging in family business ventures, entrepreneurial endeavors etc.

Industry-Institute Connect

To optimize industry connect, effective interventions from the companies are sought so that students get to know of the opportunities available in the market, help to enhance their skill sets & then direct their efforts to seek profiles of their choice. Companies are encouraged to involve with the batch for campus engagement activities thereby deepening the association and leading to a symbiotic relationship between NMIMS and the Industry. Guest talks, competitions, seminars, workshops, soft skills training, technical training etc. are a great value add. These involvements bridge the gap between expectations of recruiters and knowledge & skill sets of students.

The Placement process typically involves

- Batch Preparation
- Pre Placement Talks
- Internships/Projects
- Final Placements

Batch Preparation

Batch Preparation Program is to enhance the suitability of candidates and orient them to industry practices and expectations.

- Interactive sessions with alumni/industry experts in various profiles that help students to gain clarity on role/fit, understanding expectations of the company, future prospects - career evolution, right approach for cracking interviews, listen to first-hand experience & get a feel of life in a particular profile etc.
- Interaction with seniors who have undergone internships in companies.
- Assigning seniors or alumni as mentors to guide students.
- Mock interviews with alumni/corporates to get direct feedback from people in relevant industries.
- Guest talks and workshops on various topics from corporates.
- Resume building as per guidelines
- Technical, Soft skills training etc.

Prior to the commencement of the selection process it is expected that students have a fair idea about their interest, sector and specialization and direct their efforts accordingly. This clarity will help students land a good internship/job.

Students are expected to research about company, the business, the sector, financials, other players in the sector, etc. and be prepared with a background and fact file prior to the process. Also some additional information – the number of interns/recruits in the past, whether the company has a PPO policy, the experience of seniors who interned with the company etc. will be of help.

The Placement Office also involves companies in a number of Campus Engagement activities – corporate contests, projects, workshops, seminars, and guest talks etc. that benefit a large number of students and also helps in promoting the excellent quality of the batch.

Pre-Placement Talk – PPT

PPT's are a medium wherein the company officials disseminate information regarding their company, the profile, the compensation etc. and clarify the queries of students.

Internships/Projects

- The Placement Office makes all efforts to reach out for internships across varied sectors, companies and profiles. Based on ones' interests and capabilities one should seek internships. Choosing the correct company for internships and performing up to the mark is of utmost importance.
- The Internships are not only a window to the corporate world but also a relationship-building tool for NMIMS. It allows the companies to have a look at the talent at NMIMS, thereby strengthening Final Placements.
- Internships are an integral part of the curriculum for securing the degree. It is a great learning platform for our students and goes a long way in shaping the learning obtained in the classroom. This experience is of immense use to students to enable them to acclimatize themselves to the intricacies of the corporate world.
- The project is expected to build on the theoretical learning with practical experience and help students to discover areas of interest and future career options, identify the gaps in their learning, which they can attempt to fill in.

- Interactions during the internships both with other interns as well as employees help students to understand the expectations/needs of the organisation, the sector in general, to identify the gaps in their learning, in orienting oneself towards the sector and developing the required skill sets to emerge as the most suitable candidate.
- Internships also hold a special significance as it is an apt mechanism for companies to spot bright talent early. Many companies have structured internship process which is used as a 'testing ground' to gain a direct understanding of the skill and ability of students leading to declaration of PPO's/PPI's. NMIMS too encourages candidates to work towards such offers that are based on internship performance.
- Pre Placement Offer (PPO) is an Offer by the company to the intern acknowledging the excellent work done during the internship. Pre Placement Interview (PPI) is an opportunity by the company for the intern to be directly selected for the interview for final placements. Thus, the students should be careful in applying to the companies and should put in all efforts to convert the internship into an Offer.
- Internship are monitored, may be evaluated by a faculty guide, with periodic report submissions, evaluations, Viva Voce etc.

Final Placements

- Leading companies across sectors aspire to recruit students of NMIMS. Companies devise the eligibility criteria and selection process and have their own set of characteristics or qualities that they look for in a candidate.
- The process of selection starts with inviting applications based on the eligibility, job description, compensation details etc. shared by the company. The profiles of interested students are shared with the recruiter.
- The placement process is facilitated by the Placement Team. However, it is the effort of the student that gets him/her selected for the job. Not getting selected in the first few companies should not lead to panic. Students are advised not to switch profiles in anxiety or haste.
- The selection process could be physical or virtual & there could be multiple rounds – case analysis, group discussion, group exercises, interviews etc. Reasons like location, family issues etc. should not be constraints to students. They are expected to be mobile and have the capability to adjust, adapt and respond to emergent situations successfully.
- Students who wish to drop out of the placement process, formally notify the Placement Office vide the 'Opted Out Form' mentioning the reason, which could be higher studies, entrepreneurship, family business, seeking placements on their own with company details etc.

At NMIMS, leading companies across sectors, compete to participate in placements offering coveted & niche profiles with matching packages to students across programs. Hence, students get a plethora of opportunities to choose from. The Placement Reports are uploaded on the NMIMS website and feature, names of recruiting companies, profiles offered in general, placement statistics etc.

3. Guidelines for International Student Exchange Program:

3.1 Introduction

NMIMS Deemed-to-be-University has developed an extensive International Students Exchange Program in order to provide a cross cultural exposure and a global perspective to the students apart from classroom teaching. This is managed by Department of International Linkages of the University. The Exchange Program has become increasingly popular with the students and every year students get a chance to spend Semester/Trimesters at a partner Institute. With the dedicated efforts of the International Linkages department, efforts are ongoing to have larger number of students to avail of this unique opportunity in every school. Students at NMIMS also benefit from interacting with overseas students who visit us as part of NMIMS Inbound exchange program and International Immersions.

3.2 Preamble

In a world that is increasingly interdependent, it is imperative for the NMIMS Deemed-to-be-University to have an internationalization agenda. This involves creation of a multi ethnic environment in our programs on our campus. This can happen only when students from different countries and communities join NMIMS programs.

This policy on internationalization seeks to clarify the philosophy behind the NMIMS Deemed-to-be-University's Internationalization program and sets out the eligibility of students to apply for an international exchange program. It also sets out the selection criteria and guidelines for assessing applications and the expectations from the students going for the exchange program.

This policy also lays out the facilities for international students in our programs and also the expectations from them. We expect our foreign students to conduct themselves at par with other Indian students.

Candidates with completed and accurate application will be interviewed by the International Linkages office. Successful candidates will then be nominated to the respective partner universities following which they have to complete the online application as instructions received from partner university via email.
- 3.6.2 The list of courses that a student intends to take up in the partner institute should be clearly mentioned. For those who wish to apply in more than one institute, the lists of the courses in each of these institutes should be mentioned.
- 3.6.3 Upon joining the partner institute, the courses the students intend to take up should be finalized and communicated for approval to the NMIMS School authorities

Note: Schools to ensure that copy of Application Form compulsorily reaches Director- International Linkages department for records.

4. Examination Guidelines (ICA / TEE, Passing Criteria, Grading system, method of calculation of CGPA, Re-Examination, exceptional cases – medical etc.)

Academic evaluation is an important function to find out how well the students have grasped/comprehended the various courses in the degree program.

A course may be evaluated entirely internally, or divided into the internal continuous evaluation and semester-end examination.

4.1. Internal Continuous Assessment:

A student would undergo internal continuous assessment (ICA) for each course in all the semesters. Various components of ICA would be decided by the respective course faculty and approved by the Dean of the school.

ICA components may be Mid-term examinations / Projects/Assignments/Presentations/ Viva/ Weekly Tests / Case Studies/ Quizzes. ICA component may be 50% of the total marks of the said course or 100% of the total marks of the said course and conducted by the respective school. Every school will evaluate the student based on different ICA components during a semester. ICA marks will be published to the student before the commencement of SEE and the student may raise the query on the portal and the concerned faculty who is teaching that course can resolve it.

ICA Rules

- (1) There will be no retest for any of the ICA components.
- (2) There is no provision for improving ICA marks throughout the program.

4.2. Semester End Examination (SEE):

This will be conducted at the end of each semester for 50 % of the total marks of the said course and conducted by the University.

SEE Rules:

1. A Student can appear for SEE if he/she satisfies the attendance norms of the University.
2. The student will be marked “Absent” or secure an “F” grade (Refer Grading system) in a course and may write a re-examination for SEE in the same semester.

3. In case, the student fails even in the re-examination, which is so held, he/ she will have the following options:

To seek readmission in the subsequent year for the entire academic year

OR

Appear for the SEE of the course/courses in which the student has got an F grade, in the subsequent year. In such a case, the ICA marks of the course/ courses will be carried forward to the subsequent year. The student will be required to pay only the examination fees.

4. There is no provision for award of grace marks to any student.

4.3. Passing Standard for each course

Following are passing norms of a course in a program where assessment of a course is done by ICA and SEE together or purely ICA

4.3.1. Passing Criteria for a Course in a Semester where evaluation is done only by ICA:

To pass a course where assessment is based completely on ICA, students must secure a minimum of 40% of the total maximum marks for the course.

4.3.2. Passing Criteria for a course in a semester where evaluation is done by ICA and SEE together or purely by ICA

(ICA + SEE Course) To pass a course, a minimum of 40 % of the total marks in SEE will have to be procured along with a minimum of 40% aggregate marks out of the total marks (that is, ICA plus SEE) allotted to the course.

(Purely ICA Course) To pass a purely ICA Course, a minimum of 40 % of total marks in ICA will have to be procured for a course offered by a student.

Students who fail to fulfil the above passing criteria for a course will be awarded 'F' grade.

4.4. Non- fulfilment of Passing Criteria for a course in a program

A student who has failed to fulfil the passing criteria as given above will be required to appear for Re-Examination (RE) which will be conducted after declaration of results as per the Academic Calendar. The ICA marks will be carried forward for the RE. A student has to submit an online re-examination form and students who fail to submit the form will not be allowed to appear for the Re-Examination. There is no Re-Examination for purely ICA courses.

RE Rules

- 4.4.1 A student who has failed to fulfil the passing criteria as given above, will be required to appear for RE of a course(s) which will be conducted after the declaration of results as per the Academic

Calendar. Remedial classes will be organized, on request, for students who failed to fulfil the passing criteria as mentioned above, before the conduct of the RE.

- 4.4.2 In case, the student fails even in the RE, which is so held, he/ she can appear at the SEE in the subsequent year of the program as a year-back student. Students also have an option for taking readmission for the entire year in the next academic year and re-doing all the courses of the program.
- 4.4.3. A student who remains absent for SEE due to any reason in any course shall be marked absent in the result/ grade sheet/ transcript for the course/s. All such students will be allowed to appear at RE in the said course. The said RE for the course/s will be conducted immediately after the declaration of the result of the SEE. The dates of RE are as per the academic calendar. A student who remains absent or secured an 'F' grade in SE would not be able to avail of any further SE chance in the same semester.
- 4.4.4. A student who has failed to fulfil the passing criteria for a course in the odd/even semester of an academic year after RE will be allowed to appear for SEE for the same course in the odd/even semester of the subsequent academic year. For example, if a candidate fails a course (s) of Semester I will get a chance to appear for the failed course in Semester I of next year.

4.5. **Learning Disability (LD)**

Refer to point no. 7.5 of Part I

4.6. **Progression to the subsequent year of the program**

- 4.6.1. A student who has passed all the courses of odd and even semesters of the academic year will be promoted to the subsequent academic year of the concerned program.
- 4.6.2. A student will be promoted to the subsequent academic year of the program only when the student has no 'F' grade for any course in the academic year after SEE/ RE.
- 4.6.3. Courses with ICA and SEE – If a student gets an 'F' grade in any course in the academic year after re-examination, he can seek readmission in the subsequent year for the entire academic year
OR
- 4.6.4. A candidate can appear for the SEE of the course/courses in which the student has got an 'F' grade, in the subsequent year. In such a case, the ICA marks of the course/courses will be carried forward to the subsequent year. The student will be required to pay only the examination fees.
- 4.6.5. Courses with only ICA component–If a student does not satisfy passing criteria there will be no RE, the student has to take re-admission in the next academic year.

4.7. Different Cases

Refer to the following table for different scenarios for better understanding:

Scenario	Result
ICA + SEE Courses	
>=1F	Progression is not allowed and appear for the failed course of the semester in the next academic year or take re-admission in that year
0 F	Progression allowed in next Semester/ Year
Only ICA Courses	
>=1F	Re-admission is to be taken next year
0 F	Progression allowed in next Semester/ Year

4.8. Grading System

The University follows a letter grading system leading to the award of a ten-point Grade Point Average (GPA) for each semester and Cumulative Grade Point Average (CGPA) for all the semesters to date.

A student will be considered to have completed a Course successfully and earned the credits if he/she can secure any Letter Grade in the range 'O' to 'P'. The Letter 'F' in any Course implies the inability of the student to clear the said Course or remain absent and hence no Credits will be earned.

'Letter grades' and corresponding 'grade points' are as under:

Percentage of Mark	Letter Grade and Description	GradePoints
90-100	O (Outstanding)	10
80-89.99	A+ (Excellent)	9
70-79.99	A (Very Good)	8
60-69.99	B+ (Good)	7
55-59.99	B (Above Average)	6
50-54.99	C (Average)	5
40-49.99	P (Pass)	4
0-39.99/ Absent	F (Fail)	0
NIL	AB (Absent)	0

4.9. Computation of GPA and CGPA

The University adopts the following procedure to compute the (Semester) Grade Point Average (GPA) and the Cumulative Grade Point Average (CGPA) as per the recommendations of UGC:

- a. The GPA is the weighted average of the grade points obtained by a student in all the courses of a

semester. In other words, GPA of k^{th} Semester (Semester 1 to Semester 6) is denoted by S_k and is the ratio of sum of the product of the number of Credits and Grade points in each semester, to the total number of Credits of all Courses which have been registered by the student, i.e.,

$$S_k = \frac{\sum_{i=1}^n (C_i G_i)}{\sum_{i=1}^n C_i}$$

Where C_i is the number of Credits of the i^{th} Course, G_i the Grade points scored by the student in the i^{th} Course, and n is the number of Courses registered by the student in that semester. The GPA

should be calculated up to two decimal places. For the calculation of GPA, the “AB” grade is also taken into account.

- b. The CGPA is the weighted average of the grade points obtained by a student in all the courses starting from the first semester up to the end of the last semester in which he/she appeared. The CGPA is calculated at the end of every semester up to two decimal places and is indicated in semester grade report cards. In other words, CGPA is calculated in the same manner by taking into consideration all the Courses m , registered by a student, over all the Semesters of a Program, i.e., up to and inclusive of S_k , where $k \geq 2$.

$$CGPA = \frac{\sum_{i=1}^n (C_i G_i)}{\sum_{i=1}^n C_i}$$

CGPA shall be rounded off to 2 decimal points.

If any student fails more than once in the same course, then while calculating CGPA, the credit and grade points related to the course in which the student fails in multiple attempts will be restricted to one time only. The GPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts.
