Please spend some time and go through this information carefully so that you do not miss any opportunity that NMIMS may have to offer you. The SRB contains a Student Undertaking page at the end of the document, which you are required to sign and submit to your course coordinator by the suggested date.

We would also like your support to maintain and enhance the University's image and uphold its values. We value your feedback.

14 Feedback Mechanism:

NMIMS has a well-established online feedback mechanism through the Student Portal for communication of perceptions. The components of this feedback mechanism are:

- 14.1 Feedback at the end of the third week of every trimester/Semester. Dean / Director /Programme Chairperson/HOD will meet students personally, if applicable.
- 14.2 Online Feedback through the Students Portal is taken using a questionnaire, preferably in the last session of every course in each trimester/Semester. This feedback is compiled, and statistics are placed before each faculty member by the end of the trimester/Semester.
 - 14.2.1 All students should get involved in this mechanism seriously, as it truly helps the NMIMS improve the quality of services and teaching provided.
 - 14.2.2 These are open-ended questions in which students can reflect on learning and teaching aspects of the course.
 - 14.2.3 NMIMS uses feedback to improve the teaching-learning process proactively.
 - 14.2.4 While sharing the feedback to the faculty members, the student's identity is kept confidential.

15 Mentoring Programme / 'Psychologist and a Counsellor':

15.1 Mentoring Programme:

Students (as applicable school-wise) have been assigned faculty mentors whose role is to help assimilate the NMIMS culture, facilitate intelligent choice making regarding the selection of courses, and help identify resources needed by all students. Do meet your faculty mentor regularly, as per their convenience and availability.

15.2 Psychologist and a Counsellor:

A Psychologist is a non-judgmental, qualified professional who understands, ensures privacy and confidentiality and guides you by giving choices so that you make the right decision. This process is facilitated using realistic, structured, and research-based therapy.

Managing emotions is vital to ensure all-rounded progress in life. We need to break down the old walls of myths and misconceptions to learn something new. Visiting a counsellor (Psychologist) enables us to relearn more helpful, progressive, reality-based thinking.

Personal counselling is essential at every step in life, even at the corporate level. What we think about situations affects our subconscious mind and interferes with our present-day life.

As human beings, at any given time in life, we could go through challenges and have no one to share with or guide us. We often do not share our issues with family or friends due to the fear of upsetting them. We worry that perhaps they may not understand or could become judgmental. At such times, we recommend Personal Counselling.

- i. "I cannot concentrate or focus nor can I sleep, at times, I get so scared that I go blank in my exams!"
- ii. "Since the time he left me, I cannot put my attention to anything, I will not be able to live anymore.....can't bear it if she is not in my life!"
- iii. "I have lost my confidence, I feel worthless /hopeless; no one loves me. I don't want to live anymore."
- iv. "I feel nobody understands what I am going through..." (People become judgmental instead of understanding and supporting) "I feel people invalidate my feelings."
- v. "I do not know whom to share my feelings with. Where do I seek help? Who will be able to help me?"

Have you had any of these repetitive thoughts or faced a rejection that you cannot cope with?

Have you reacted very angrily at first and then later realised that reacting to the event was not needed, and in the process, you harmed the relations you had with your friends and family? Do you not know what went wrong then? Do you not understand what triggered you?

Just as we would treat a sprain with some ointment, we try to heal our emotional pain independently. When the sprain is not healing, we visit the doctor, and similarly, one sees the psychologist sometimes when we are unable to clear our emotional challenges on our own. The counsellor needs to check how deep your wound is, and usually, you are helped through therapeutic counseling.

We may be unaware of our behaviour's implications on others, but it eventually could affect our relations in daily life at home, in class, or at work. When past emotional situations are not dealt with therapeutically, we could develop unhealthy negative thoughts and feelings that we need to be aware of. They could again lead to complications and affect our performance, decision making, logical thinking, studies, relationships, and career. This continued stress can gradually affect our body and physiological health, causing hypertension, respiratory ailments, gastrointestinal disturbances, migraine and tension headaches, skin conditions, and ulcers. Understanding the mind-body connection is essential.

The biggest myth is that being emotional is to be weak, so often, we push all our emotional issues under the carpet and then take up unhealthy habits like smoking, drinking, and substance abuse to escape from our reality. We hope to feel better, which lasts only for a short time. On the other hand, creating long-term damage may lead to unhealthy dependency.

NMIMS wants to ensure the holistic development of the students. We understand that to perform at your highest potential in your academic journey, your emotions and mental health need to be well-regulated and balanced. Therefore, have appointed a team of psychologists who you can connect with via call or email and set up a session to discuss any concerns that may be affecting you.

21. Safety Guide for Students on Floods, Fire and Earthquakes

NMIMS gives utmost importance to safety of its students. It prepares students for natural hazards.

The safety measures for some natural disasters, such as 1) Floods, 2) Earthquakes and 3) Fire, are highlighted briefly.

21.1 Floods: Precautions to be taken in case of Floods are given in Table 1 below.

| Before Floods | During Floods | After Floods |
|--|--|--|
| <ul style="list-style-type: none"> Identify and visit elevated areas in and around the Institute as places of refuge during a flood Be aware of drainage channels and other low-lying areas known to flood suddenly. Consult and involve local authorities in the institutes Check for the monsoon alerts for the heavy rains declared by the Municipal Corporation Do not travel long distances on dates indicated as 'Monsoon Alerts'. Contact the Institute if there is any pre-planned activity or examination, or any other important work on that day, and try to adjust it on some other day Keep locally available equipment such as ropes, batteries, radio, plastic bottles, and cans handy during the rainy season. This can help you to plan your rescue Prepare a food kit including emergency food items such as biscuits, snacks, drinking water, and so on | <ul style="list-style-type: none"> Evacuate to previously identified elevated areas Your life is most precious. Avoid saving valuables at that moment. Disconnect electrical appliances. Turn off utilities at the main switches or valves if instructed to do so Don't touch electrical equipment if you are wet or standing in water Do not walk through moving water. Six inches of moving water can make you fall If you have to walk in water, walk where the water is not moving Use a stick to check the firmness of the ground in front of you Avoid floodwaters; water may be contaminated by oil, gasoline, or raw sewage Water may also be electrically charged from underground or downed power lines Listen to the radio for advanced information and advice. Don't spread rumors Move vehicles to the highest ground nearby Do not enter floodwaters on foot if you can avoid it Never wander around a flooded area Drink clean water | <ul style="list-style-type: none"> Stay away from downed power lines, and report them to the Security Officer Leave the Institute / home only when authorities indicate it is safe Stay out of any building if it is surrounded by floodwaters Use extreme caution when entering buildings; there may be hidden damage, particularly on foundations Floors in the building will be slippery due to water and mud. Walk carefully on the slippery floor. Wear appropriate footwear. Do not use slippers during the rainy season Watch out for loose flooring, holes, and dislodged nails Clean and disinfect everything that got wet Discard any food items which may have got wet Inform them about the damaged drainage and sewage systems in and around the building to the authorities as soon as possible. These can be a major health hazard First, protect yourself and then help others. |

21.2 Earthquake: Precautions to be taken in case of earthquakes are displayed in Table 2 below:

| Before Earthquake | During Earthquake | After Earthquake |
|---|--|---|
| <ul style="list-style-type: none"> In a hostel or at home, keep heavy objects on lower shelves so they will not fall on you during an earthquake. Make sure your water heater and gas cylinder are secured and intact. This will ensure that it will not fall during an earthquake and hurt someone or start a fire. Keep a torch and a mobile handy. Keep the corridors in the hostel/house clear of furniture and other things, making movement easier. | <p>If you are at home or inside a building</p> <ul style="list-style-type: none"> Do not rush to the doors or exits; never use the lifts; keep well away from windows, mirrors, chimneys, and furniture. Protect yourself by staying under the lintel of an inner door, in the corner of a room, under a table, or even under a bed. <p>If you are on the street</p> <ul style="list-style-type: none"> Walk towards an open place in a calm and composed manner. Do not run and do not wander round the streets. Keep away from buildings, especially old, tall, or detached buildings, electricity wires, slopes, and walls, which are liable to collapse. | <p>If you are at home or inside a building</p> <ul style="list-style-type: none"> Expect aftershocks. Be prepared. Stay where you are and do not come out immediately. Keep calm and obey any instructions you hear after you come out Turn off the water, gas, and electricity Do not smoke and do not light matches or use a cigarette lighter. Do not turn on switches. There may be gas leaks or short circuits. If there is a fire, try to put it out. If you cannot, call the fire brigade. Message from Dean

Welcome to the School of Mathematics, Applied Statistics and Analytics. Emerging out of the recent restructuring exercise initiated by the NMIMS University, the School is perhaps the youngest among the Schools in the University. I am sure, our journey is going to be exciting and enriching for the students and the faculty. We are hoping to experience an invigorating renewal of intellectual bondage between Mathematics, one of the oldest branch of Science, and Statistics, one of the youngest twentieth century discipline of Science.

The new age scientific and technological innovations have brought Mathematical Sciences to be at the center stage. Mathematical Sciences, which solve problems on the basis of logic and scientific approach, are highly required in our modern society which is increasingly becoming more and more complex and globalized. Interestingly, both Mathematics and Statistics are much sought after disciplines of study and well positioned to be useful in solving many of the theoretical problems that have end user applications in society. In the modern days the potent combination of Mathematics and Statistics is seen as the driver of philosophy, that is "knowledge creation, development, and transmission for the good of society". There is no second opinion that education is an investment, and the School wants to make sure your investment is rewarded.

Our approach to education, from our rigorous but hands-on academic curriculum to the unique opportunities that we provide to our students, allows you to put classroom instructions to work in the real world. This approach is geared towards ensuring you earn the degree and skills that will make you an asset to future employers and prepares you for a rewarding career.

The SOMASA provides access to many valuable resources. Our teaching faculties are accomplished mathematicians, statisticians and engineers in the field, and many bring a wealth of industry experience to the classroom. The students will have plenty of time to get to know the professors and seek their advice both inside and out of the class. We have in place student mentoring system which ensures sustainable personal interest in each individual's success.

The achievement indicators of the programmes offered by SOMASA are on the rise. These include increases in undergraduate enrollment, accomplishments in research, and recognition of SOMASA's excellence through student scholarship awards and placements. The departments within the school bring class instructions to life through research treatise course, capstone projects and industry internships.

In the current decade, Computational Mathematics, Data Science, Model based Analytics and Artificial Intelligence have been receiving a phenomenal traction both in academia and the industry. There is a huge potential in terms of formal career opportunities in these disciplines. The industries are keen on recruiting undergraduates and post-graduates with qualifications in Applied Mathematics and Statistics as the core members of Data Science and Business Analytics Team. All our programmes are in line with the NMIMS' (Deemed to be University) priority strategy to design and deliver programmes that cater to market requirements. Strategically, the University aims to play a special role in enhancing the employability of young Indians and helping the economy acquire a competitive edge.

I look forward to supporting our aspiring students, and call upon them to continue to learn, discover, and contribute to solving the most challenging problems. I encourage you to explore your creative thinking during your journey with us.

1. Any other Academic/general inputs, Rules Policies at school level

1.1 General Guidelines:

This part provides comprehensive information on the Rules and Regulations for all Programs from Nilkamal School of Mathematics, Applied Statistics & Analytics (NSOMASA).

NMIMS University gives freedom to its various Schools to tailor their academic programs as per their specific needs, within the framework of the Rules and Regulations approved by the Board of Studies and Academic Council from time to time. Keeping in view the new technical developments and to allow students some freedom to explore topics of their interest, NSoMASA revised its undergraduate programme curriculum (w.e.f. the Academic Year 2024-2025) as per NEP 2000 guidelines. The revised curriculum provides additional opportunities and flexibility for students to optimize their learning experience.

NSoMASA offers the following programs:

| | |
|--|--|
| (1) B.Sc.(Honours) (Applied Mathematical Computing), | (2) B.Sc.(Honours) (Applied Statistics & Analytics), |
| (3) B.Sc. (Honours) (Data Science), | (4) M.Sc. (Applied Statistics & Analytics), |
| (5) M.Sc. (Statistics & Data Science) | (6) M.Sc. (Data Science) |
| (7) Ph.D.(Data Science) | (8) Ph.D. (Statistics) |
| (9) Ph.D.(Mathematics) | |

The structure of the degree program allows the students to experience the full range of holistic and multidisciplinary education in addition to a focus on the chosen major and minors as per their choices and the feasibility of exploring learning. The credit structure for different levels under the UG program with multiple entry and multiple exit options are as given below:

| Three Year Bachelor's Degree | 120 | 6 |
| Bachelor's Degree- Honours | 160 | 8 |

Program Qualification Titles and Credit Requirements for the Master's program is given below:

| Qualification Title | Credit Requirements | Semester |
|--|---------------------|----------|
| M.Sc. (Applied Statistics & Analytics) | 44 | 4 |
| M.Sc. (Statistics & Data Science) | 88 | 4 |
| M.Sc. (Data Science) | 120 | 4 |

Academic Calendar

The academic activities of the School are governed by the Academic Calendar, which is published at the start of each academic year. It is essential for both students and faculty to strictly follow the Academic Calendar to ensure the timely completion of academic activities. The Academic Calendar is available on the School's website: <https://mathematics.nmims.edu/>

1.2 Academic Guidelines:

The following are the keywords used in this document:

- **Discipline:** A “discipline” is defined as a grouping of courses that share common academic or vocational preparation, which are typically defined by a degree or degrees, or specific professional preparation. Science & Technology, Arts, Commerce, Management etc.
- **Program:** A ‘Program’ is a set of courses that are linked together in an academically meaningful way and generally ends with the award of a Degree. Thus, B.A., B.Sc. and B.Com. are Programs.
- **Credit Point:** It refers to the ‘Workload’ of a student and is an index of the number of learning hours deemed for a certain segment of learning. These learning hours may include a variety of learning activities like reading, referencing, reflecting, discussing, attending lectures, writing assignments, preparing for examinations, etc.

Credits assigned for a single course are based on the hours it would take for a student to complete a single course successfully. The range of credits of a single course may be one to six credit points wherein one credit is construed as corresponding to 15 learning hours for the Theory Course or 30 learning hours for the Practical Course.

- **Subject and Course:** A course is the study of several learning topics and consists of different units or modules. A set of different courses forms a subject. For example, Calculus and Algebra are courses from a subject Applied Mathematical Computing of F.Y.B.Sc. program.
- **Major subject:** It is the subject of main focus and the degree will be awarded in that subject, provided that students secure the prescribed number of credits (about 50% of total credits) through core courses in the major subject. Elective courses of major will be offered in the third/fourth year. Two credits of major IKS shall be included under the major.
- **Minor subject:** (18-20 credits) It helps a student to gain a broader understanding beyond the major subject. The minor subjects may be from different disciplines of the same faculty of major subjects. For example, if a student is pursuing Statistics as a major subject, then Mathematics with 18-20 credits can be taken as a minor subject.

- **Open Elective (OE):** (10-12 credits) An elective course is generally chosen from an unrelated subject/discipline to seek multidisciplinary exposure. For example, if Statistics is a major then mathematics courses can be an open elective.
- **Vocational and Skill Enhancement Courses: (14-16 credits)**
 - (a) **Vocational Skill Course (VSC):** (8-10 credits) Courses which are aimed at providing hands-on training, practical skills and knowledge, competencies, and proficiency to students to enhance skill & employability.
 - (b) **Skill Enhancement Course (SEC):** (6 credits) Courses which are to be selected from the basket of skill courses approved by the University. It could be chosen from a basket/pool offered by the college or a MOOC on Swayam or NPTEL platforms
 - (c) **Ability Enhancement Course (AEC):** (8 Credits) Courses which are aimed at enabling the students to acquire & demonstrate the core linguistic skills, and achieve competency in Modern Indian Language and English Language. The focus is mainly on communication skills.
 - (d) **Value Education Course (VEC):** (4 Credits) Courses which are based upon the content that leads to knowledge enhancement through various areas of study such as Understanding India, Constitution of India, Environment studies, and Sustainable Development.
 - (e) **Indian Knowledge System (IKS):** (2 credits) To be offered in 1 year. To be chosen from a basket of IKS courses.

On-Job Training(OJT)/Internship/Field Project (FP)/Community Engagement Programme (CEP), Research Project (RP):

- (a) Application of knowledge/concepts in solving or analyzing a real-life problem. All these are related to the major subject.
- (b) Internship corresponding to the major subjects with 8 credits.
- (c) Field Project (FP)/Community Engagement Programme corresponding to the major subjects with 4-6 credits. To be offered in the second and third year.
- (d) **Co-Curricular Courses (CC):** (8 credits) Courses which will provide students with a sense of identity & belonging, as well as an appreciation of other cultures & identities; for example courses such as National Cadet Corps (NCC), National Service Scheme (NSS), Yoga education, Health & Wellness, Sports, Cultural activities, Fine/Applied/Visual/Performing Arts. To be offered in first and Second year.
- (e) Research projects with 12 credits and is to be offered at fourth-year Honours with research UG degree.

2. Placement Guidelines:

The Placement and Career Guidance Cell (PCGC) plays a pivotal role in bridging the critical gap between academic learning and the dynamic demands of the corporate and professional landscape.

PCGC of NSoMASA operates as a cornerstone initiative, dedicated to facilitating and counseling qualified students through comprehensive placement-related activities conducted throughout the year. Rather than merely providing job guarantees, the PCGC adopts a holistic approach to professional development. The 12-Day Pre-Placement Orientation Program is conducted to transform aspiring students into more industry-friendly, skilled, and marketable professionals.

The various components of the Pre-Placement Orientation Training Programs include sessions on Presentation Skills, Group Discussion Skills, Debate Skills, Interview Skills & Mock Interviews, Contemporary issues, Professional tit-bits, etc. A company-specific orientation program is also conducted for the target students before all the placement drives organized by the School.

➤ Campus Placement Process:

Corporate Engagement & Invitation Process

- The PCGC actively invites prospective organizations annually for campus placements at different locations across the country.
- Organizations may also directly contact the Placement Cell to meet their human resource requirements, creating mutually beneficial partnerships.

Corporate Information & Scheduling Framework

- PCGC team completes a Corporate Information Sheet (CIS) containing comprehensive job offer details, including pay packages, locations, positions, job descriptions, and other relevant employment terms.
- Companies specify their preferred dates for campus visits to facilitate optimal scheduling coordination.
- The PCGC team allocates specific dates for campus interviews based on various company requirements and logistical considerations.
- Companies confirm their allocated dates with the PCGC team well in advance to ensure seamless execution.

Student Preparation & Information Dissemination

- Student details of those opting for placements are shared with concerned companies/organizations as per their specific requirements.
- Companies receive updated Placement Brochures containing campus interview dates and other relevant details for different locations.
- Students receive timely notifications through emails, and phone calls.

Campus Interview Execution

- Companies visit campuses on their allotted dates and conduct comprehensive recruitment processes, including presentations, written tests, group discussions, and personal interviews according to their scheduled procedures.
- Telephonic interviews or online interviews are arranged when required to accommodate different needs and circumstances.

Results & Final Selection Process

- Companies are requested to declare their final selection results on the next day of campus visits.
- Organizations must provide duly signed hard copies of final selection lists to the PCGC for official documentation.
- The PCGC immediately announces and informs all stakeholders about the final list of selected candidates.
- Selected candidates should sign the document called “Agreement with NMIMS” before joining.
- Companies as well as the placed students have to share the offer letter with the PCGC.

Campus Placement – General Policies & Guidelines:

- The role of the PCGC is of a **facilitator and counselor for placement related activities. It does NOT guarantee a job.** Applying for a company or joining a company is entirely the responsibility/decision of the student concerned.
- The placement facility is only available to the students who have registered online along with Pre-placement Orientation Program.
- ***One job to one student at the first instance.*** If a student is offered a job, he/she will be de-registered from the placement process and would not be allowed to appear in any further processes till campus placement activities are over.
- Students must keep their Identity Card with them at the time of Company Presentation/ Written Test/Group Discussion/ Personal Interviews, and produce the same when asked by the visiting team, or their representatives.
- Once the student appears for the placement process, the student cannot reject the offer made by the company (in whatever format it is offered - email, written communication, telephonic conversation, direct offer during interview process) in search of availing another offer in course of time.
- In case, if a company has a specific requirement/request, PCGC may nominate a set of individual student(s) and they must attend the interview.
- Each student shall be permitted to accept only one valid offer.
- If a company wants to start its process before the slotted day and time, they may be permitted to do so in consultation with the PCGC; but they shall declare the final offer on the particular day when the company is slotted in the campus placement.
- All correspondence to and from the company will be routed through the PCGC only.
- After accepting a job offer, if any student decides to withdraw his/her acceptance, he/she must inform the company concerned through the PCGC immediately. But in such a case his/her

candidature will be blocked for further placement opportunity.

- If a student makes any false claim in his/her resume, his/her registration at PCGC may be liable to be cancelled immediately. If the student has already received a job offer, it would be revoked.
- It is the sole responsibility of the student to check that he/she meets all the eligibility criteria that might be required at the time of joining (academic, experience, medical, etc.).
- Any kind of indecent behavior during the placement engagement sessions may lead to cancellation of registration.
- The Placement process may be conducted in both physical and / or online mode as per the requirement of the company or depending upon other situations.
- The students should abide by the prevalent rules and regulations of the Institute during the placement process.
- Students should be punctual and adhere to the prevalent rules, regulations and timings.
- Students should be formally dressed and well groomed.
- Students should carry all relevant testimonials (Ex. Resume, Copy of educational certificates, photograph, Govt. id proof, Institute id card, etc.).
- Students should be well versed with the company profile, job description and other details.

During the entire placement process student should behave ethically and exhibit reasonably fair code of conduct..

3. Examination Guidelines (ICA / TEE, Passing Criteria, Grading system, method of calculation of CGPA, Re-Examination, exceptional cases – medical etc.)

Academic evaluation is an important function to find out how well the students have grasped/comprehended the various courses in the degree program.

A course may be evaluated entirely internally, or divided into the internal continuous evaluation and semester-end examination.

3.1. Internal Continuous Assessment:

A student would undergo internal continuous assessment (ICA) for each course in all the semesters. Various components of ICA would be decided by the respective course faculty and approved by the Dean of the school.

ICA components may be Mid-term examinations / Projects/Assignments/Presentations/ Viva/ Weekly Tests / Case Studies/ Quizzes. ICA component maybe 50% of the total marks of the said course or 100% of the total marks of the said course and conducted by the respective school. Every school will evaluate the student based on different ICA components during a semester. ICA marks will be published to the student before the commencement of SEE and the student may raise the query on the portal and the concerned faculty who is teaching that course can resolve it.

ICA Rules

- (1) There will be no retest for any of the ICA components.
- (2) There is no provision for improving ICA marks throughout the program.

3.2. Semester End Examination (SEE):

This will be conducted at the end of each semester for 50 % of the total marks for the course. The University will administer it.

SEE Rules:

1. A Student can appear for SEE if he/she satisfies the attendance norms of the University.
2. The student will be marked “Absent” or secure an “F” grade (Refer Grading system) in a course and may write a re-examination for SEE in the same semester.

3. In case, the student fails even in the re-examination, which is so held, he/ she will have the following options:

Apply for readmission in the subsequent academic year

OR

Appear for the SEE of the course/courses in which the student has got an F grade, in the subsequent year. In such a case, the ICA marks of the course/ courses will be carried forward to the subsequent year. The student will be required to pay only the examination fees.

3.3. Passing Standard for each course

Following are passing norms of a course in a program where assessment of a course is done by ICA and SEE together or purely ICA

3.3.1. Passing Criteria for a Course in a Semester where evaluation is done only by ICA:

To pass a course where assessment is based completely on ICA, students must secure a minimum of 40% of the total maximum marks for the course.

3.3.2. Passing Criteria for a course in a semester where evaluation is done by ICA and SEE

(ICA + SEE Course) To pass a course, a minimum of 40 % of the total marks in SEE will have to be procured along with a minimum of 40% aggregate marks out of the total marks (that is, ICA plus SEE) allotted to the course.

Students who fail to fulfil the above passing criteria for a course will be awarded 'F' grade.

3.4. Non- fulfilment of Passing Criteria for a course in a program

A student who has failed to fulfil the passing criteria as given above will be required to appear for Re-Examination which will be conducted after declaration of results as per the Academic Calendar. The ICA marks will be carried forward for the Re-Examination. A student has to submit an online re-examination form and students who fail to submit the form will not be allowed to appear for the Re-Examination. There is no Re-Examination for purely ICA courses.

Re-Examination Rules

3.4.1. A student who has failed to fulfil the passing criteria as given above, will be required to appear for Re-Examination of a course(s) which will be conducted after the declaration of results as per the Academic Calendar. Remedial classes will be organized, on request, for students who failed to fulfil the passing criteria as mentioned above, before the conduct of the Re-Examination.

3.4.2. In case, the student fails even in the Re-Examination, which is so held, he/ she can appear at the SEE in the subsequent year of the program as a year-back student. Students also have an option for taking readmission for the entire year in the next academic year and re-doing all the courses of the program.

3.4.3. A student who remains absent for SEE due to any reason in any course shall be marked absent in the result/ grade sheet/ transcript for the course/s. All such students will be allowed to appear at Re-Examination in the said course. The said Re-Examination for the course/s will be conducted immediately after the declaration of the result of the SEE. The dates of RE are as per the academic calendar. A student who remains absent or secured an 'F' grade in SE would not be able to avail of any further SE chance in the same semester.

3.4.4. A student who has failed to fulfil the passing criteria for a course in the odd/even semester of an academic year after Re-Examination will be allowed to appear for SEE for the same course in the odd/even semester of the subsequent academic year. For example, if a candidate fails a course (s) of Semester I will get a chance to appear for the failed course in Semester I of next year.

3.5 Learning Disability (LD)

Refer to point no. 7.4 of Part I

3.6. Progression to the subsequent year of the program

- 3.6.1. A student who has passed all the courses of odd and even semesters of the academic year will be promoted to the subsequent academic year of the concerned program.
- 3.6.2. A student will be promoted to the subsequent academic year of the program only when the student has no 'F' grade for any course in the academic year after SEE/ Re-Examination.
- 3.6.3. Courses with ICA and SEE – If a student gets an 'F' grade in any course in the academic year after re-examination, he/she can seek readmission in the subsequent year for the entire academic year

OR

3.6.4. A candidate can appear for the SEE of the course/courses in which the student has got an 'F' grade, in the subsequent year. In such a case, the ICA marks of the course/courses will be carried forward to the subsequent year. The student will be required to pay only the examination fees.

3.6.5. Courses with only ICA component–If a student does not satisfy passing criteria there will be no Re-Examination, the student has to take re-admission in the next academic year.

3.7. Different Cases

Refer to the following table for different scenarios for better understanding:

| Scenario | Result |
|-------------------|---|
| ICA + SEE Courses | |
| $\geq 1F$ | Progression is not allowed and appear for the failed course of the semester in the next academic year or take re-admission in that year |
| 0 F | Progression allowed in next Semester/ Year |
| Only ICA Courses | |
| $\geq 1F$ | Re-admission is to be taken next year |
| 0 F | Progression allowed in next Semester/ Year |

3.8. Grading System

The University follows a letter grading system leading to the award of a ten-point Grade Point Average (GPA) for each semester and Cumulative Grade Point Average (CGPA) for all the semesters to date.

A student will be considered to have completed a Course successfully and earned the credits if he/she can secure any Letter Grade in the range 'O' to 'P'. The Letter 'F' in any Course implies the inability of the student to clear the said Course or remain absent and hence no Credits will be earned.

'Letter grades' and corresponding 'grade points' are as under:

| Percentage of Mark | Letter Grade and Description | GradePoints |
|--------------------|------------------------------|-------------|
| 90-100 | O (Outstanding) | 10 |
| 80-89.99 | A+ (Excellent) | 9 |
| 70-79.99 | A (Very Good) | 8 |
| 60-69.99 | B+ (Good) | 7 |
| 55-59.99 | B (Above Average) | 6 |

| | | |
|-----------------|--------------|---|
| 50-54.99 | C (Average) | 5 |
| 40-49.99 | P (Pass) | 4 |
| 0-39.99/ Absent | F (Fail) | 0 |
| NIL | AB (Absent) | 0 |

3.9. Computation of GPA and CGPA

The University adopts the following procedure to compute the (Semester) Grade Point Average (GPA) and the Cumulative Grade Point Average (CGPA) as per the recommendations of UGC:

- a. The GPA is the weighted average of the grade points obtained by a student in all the courses of a semester. In other words, GPA of kth Semester (Semester 1 to Semester 6) is denoted by S_k and is the ratio of sum of the product of the number of Credits and Grade points in each semester, to the total number of Credits of all Courses which have been registered by the student, i.e.,

$$S_k = \frac{\sum_{i=1}^n (C_i G_i)}{\sum_{i=1}^n C_i}$$

Where C_i is the number of Credits of the i th Course, G_i the Grade points scored by the student in the i th Course, and n is the number of Courses registered by the student in that semester. The GPA should be calculated up to two decimal places. For the calculation of GPA, the “AB” grade is also taken into account.

- b. The CGPA is the weighted average of the grade points obtained by a student in all the courses starting from the first semester up to the end of the last semester in which he/she appeared. The CGPA is calculated at the end of every semester up to two decimal places and is indicated in semester grade report cards. In other words, CGPA is calculated in the same manner by taking into consideration all the Courses m , registered by a student, over all the Semesters of a Program, i.e., up to and inclusive of S_k , where $k \geq 2$.

$$CGPA = \frac{\sum_{i=1}^n (C_i G_i)}{\sum_{i=1}^n C_i}$$

CGPA shall be rounded off to 2 decimal points.

If any student fails more than once in the same course, then while calculating CGPA, the credit and grade points related to the course in which the student fails in multiple attempts will be restricted to one time only. The GPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts.
